

# ISER 2020 - L.U.N.A. - A Laser-Mapping Unidirectional Navigation Actuator

Jasper Zevering<sup>1</sup>, Anton Bredenbeck<sup>1</sup>,  
Fabian Arzberger<sup>1</sup>, Dorit Borrmann<sup>1</sup> and Andreas Nüchter<sup>1</sup>  
<sup>1</sup>Julius-Maximilians University Würzburg, Germany

- Mapping environments using a 2D-Laser-Scanner inside a spherical robot
- Uses an Impulse Based Conversation of Momentum (IBCOAM) for locomotion
- Pose Estimation via inertial sensors as main challenge
